<ul style="list-style-type: none"> • Great. • She needs to explain a little more in depth the problems but she is crunched for time so it is not her fault. We should not be shown problems for the first time from her. • Really great TA – clear, explained things well, covered things in depth/covered material that wasn't in lecture but we were supposed to learn it anyway. • Thorough, simplified explanation. Overall perfect TA. • Very good. No critiques • She always alerted us to her office hours and recitations. She was always incredibly responsive to questions and thorough in her responses. She was a great point of contact when I had concerns, and she was always able to help me out when I needed assistance. One of the best TAs I've encountered. • She is great! Always here to help. Always on time, Always friendly!!!! • She was always well-prepared for the recitation section she held. I appreciated that she would take time to check that we were still following and would answer any and all questions we had. Sometimes, the recitation section moved a bit too fast, but that was understandable because there were many questions and too little time, so she did the best she could. • Yu Kyung Koh is a great TA! The recitations were extremely helpful and the office hours really helped advance my understanding of the class material. All explanations were super clear and she really has a talent for teaching!
